

Govind Das

"You got everything you wanted. And you feel none of it."

THE HANDOFF BRIEF

Asset: VSL landing page hosting Govind's 5-min film. **The one next click:** Book the paid **Experiential Session, a live, one-on-one ONLINE session with Govind** (held with a deposit). The program (Shark Sage / AED 36,000) is RESERVED for the room, never on this page.

Buyer (this page only): The Hollow High Achiever. Dubai founder/senior executive, 35 to 55, AED 50K+/mo, won the material game and felt none of it. The Heartbroken and the Ailing-biohacker avatars get their OWN ad sets/pages; keep them off here.

Register (non-negotiable): calm, rational, founder-to-camera. Science as proof. NO hype, NO exclamation marks, NO guru/robes/mystical language. Metaphysics stays for the room.

Mechanism (the named lever): body-first / The Holistic Success Framework, delivered live as a guided experience. Past failure externalised onto "the model was too small, talk reaches ~10% of the mind." (The Frequency Lab proves Govind's legitimacy; it is not the session's method.)

Section tags (N.O.B.R.A.I.N.E.R.) are internal design-intent notes, not page copy.

▲ ONLINE VS LAB — READ THIS

The **Experiential Session** is delivered **ONLINE** (live, one-on-one). **The Frequency Lab is the in-person physical space in Dubai**, it is used here only as CREDIBILITY/PROOF (real tech, celebrity clientele) and runs as its OWN separate in-person funnel/membership for the biohacking-curious avatar.

This page must NOT present the Lab as the venue of the booked session, and must NOT promise the light/PEMF tech as part of the online session. (Note: the strategy doc's funnel step "4. The session (in-Lab)" and the "Book a session at The Frequency Lab" ad angle belong to the Lab funnel, not this one, reconcile in the doc.)

VERSION HISTORY

v2 changes: (1) coaching-proof seam closed, proof now leads with coaching outcomes + honest numbers, Lab/association moved to support; (2) mechanism de-duplicated so each section owns one job; (3) science

wording softened to defensible/observed framing; (4) added a "boardroom to the room" authority section, a plain "no pitch" line, and a calm soft-door secondary CTA (inspiration from the Robert Simic funnel, style only, nothing copied).

v3 changes: (1) NEW hero headline, "You got everything you wanted. And you feel none of it." (the Hollow Truth, the buyer's most-repeated sentence, pulled from the strategy + VSL script); eyebrow trimmed to name the WHO only so it doesn't pre-spend the payoff; brand-owned "done all the reading" line moved to the subhead. (2) Inline proof added in §5 so the boldest science claim is backed where it's made (the last open "I" gap). (3) Authority echo trimmed from the §7 table so the 24-years/two-decades line is owned once, by §6.

v4 changes (CORRECTION): the Experiential Session is ONLINE, not at the Frequency Lab. Removed every "at the Lab / in the room" venue claim (hero subhead, §7, §10, §11, §12) → "live / in the session." §5 split: body-first SCIENCE (general, applies to the live guided work) separated from the FREQUENCY LAB as credibility-only (Govind's real Dubai space, not the session venue, light/PEMF not promised in this session). Added an FAQ confirming the session is online and that the Lab is a separate in-person experience.

FOR THE FOUNDER OR SENIOR EXECUTIVE IN DUBAI WHO HAS WON THE MATERIAL GAME

You got everything you wanted. And you feel none of it.

You've done all the reading. This is the part you have to feel: one paid session with Govind, live and one-on-one, where the shift happens in real time, not in another book you'll finish and forget.

Headline note (he reacts on the live line): Chosen line is the Hollow Truth, the buyer's most-repeated sentence per the strategy, a pure pattern-interrupt in his own voice, honest, no guru register. Alternates if you want to test: (B) "You're running world-class software on broken hardware." the rational/founder-mind metaphor, distinctly Govind, from the VSL script. (C) "The monk who keeps his Ferrari" stays OFF the hero on purpose, it's the dream, it lives at the close (strategy is explicit).

→ **Book My Session**

Live, one-on-one, online · Held with a deposit · Felt-shift guarantee: feel a change in the session or your fee is returned · Limited slots, each led personally by Govind

Soft door (secondary, for the not-yet-ready): Not ready to book? Watch the 5-minute film first. *(or: take the 2-minute self-diagnostic, see note in CONFIRM list)*

You got everything you said you wanted. The exit, the title, the life that looks complete from the outside.

And inside, you feel none of it. Tired, off, hollow, and unable to name exactly why.

You've tried the obvious answers. Therapy. Coaching. The meditation apps. The retreats. A shelf of books you can quote and still cannot act on.

Each one touched a single layer. Nothing held.

This is not in your head, and it is not a discipline problem.

03 Why Nothing Held

R (the central lever) — owns the blame-relief

Here's the part no one told you.

Every method you tried worked on your **thinking**, maybe ten percent of what actually runs you. None of them reached the ninety percent underneath, or the body that has run in overdrive for years. That's why willpower keeps failing you. You're not weak. You were handed a map of one-tenth of the territory.

You were never given the manual for the rest of it.

That is what this is.

04 The Framework

Schwartz new named mechanism — owns the triangle + the five dimensions

Most successful people have one or two of three things. A strong body and relationships. Real wealth. Genuine inner peace. Almost no one has all three, and **the one that's blocked is quietly costing you the other two.**

Govind calls the work that changes this the **Holistic Success Framework**: five dimensions, aligned at once, physical energy, mental clarity, intellectual wisdom, emotional stability, spiritual purpose. Not another thing to add on top of a busy life. The operating system underneath it.

It starts where talk cannot reach: the body and the nervous system. Raise the body's state, and a new pattern finally has something to anchor into.

You don't have to take any of this on faith. It's grounded in things you can test.

- Your body runs on **measurable electrical activity**. When a cell's charge drops, the body struggles to function, established cell biology, not metaphor.
- Your mind runs largely **below conscious awareness**. Talk reaches the small, conscious part. The rest pulls the other way, which is why willpower keeps failing you, and what the session actually works with.
- The session is **a guided experience, live**, that works with the body and the nervous system first. That is why a felt shift happens in real time, instead of another insight you understand and still can't act on.

And this isn't a guru with a microphone. Govind also runs **The Frequency Lab** in Dubai, a real, physical space built on measurable biohacking technology, with a clientele of global wellness names. The same body-first principles, made physical. *(The Lab is the in-person side of his work; your Experiential Session is delivered live online.)*

*A clinical psychologist who has been through the Lab, **Dr Saliha Afridi**, founder of Lighthouse Arabia, owns the device and calls it "a prized possession." [CONFIRM sign-off] When a clinician keeps one at home, you're past the question of whether the work is real.*

⚠ INTERNAL — NOT FOR PAGE

The Lab is CREDIBILITY only here, do not imply the buyer receives the light/PEMF in the online session. Lock a defensible source/wording for the cell-charge and conscious/subconscious claims before paid traffic.

For 24 years, Govind won inside corporate sales, the same game you're playing. Then two decades of disciplined study under a master, and the recognition that he'd been operating the whole time without the manual.

That dual track is the difference. **No other coach in the region can speak to the boardroom and the body with equal authority**, the strategy you respect and the part underneath it that no spreadsheet reaches.

No robes. No microphone-and-big-claims. A man who succeeded at your game, then went looking for what success couldn't buy, and found it.

A diagnostic for your inner operating system.

In one session, Govind finds where you're leaking energy across the five dimensions, identifies your single biggest alignment gap, and shows you exactly how to close it. You leave with a clear action plan, and the experience of what aligned success actually feels like.

WHAT IT IS	WHAT IT IS NOT
A felt experience that changes your state in the session	Another course, call, or book to get through
A body-first, rational method	Robes, mysticism, or ashram language
Led by someone who won at your game first, then went deeper	A one-year guru with a microphone and big claims
One paid session that proves itself before you commit to anything	A free call where the real agenda is to sell you

Why it's paid, not free: a free call is a sales call, and you can smell it from the first minute. When you pay for the session, you don't arrive as a prospect being pitched, you arrive as a client already in the session. **There is no pitch in the session.** What it does or doesn't lead to afterward is entirely your call.

ON THE WORK ITSELF

"When I was at a crossroads and looking for clarity, three hours with Govind helped me see things in the right perspective. I'd recommend one session with him over multiple hours of talk therapy with a psychologist."

— Meenakshi Arora, Head of Learning & Development

"I make better decisions with less stress. My team notices the difference. My family notices the difference."

— a CEO, after the work [CONFIRM consented, anonymised]

"I'm making more money working fewer hours, not because I found a hack, but because I'm operating from alignment instead of force."

— an entrepreneur, after the work [CONFIRM consented, anonymised]

Two decades of sessions. Thousands of people through the Lab. This is a private practice that, until now, ran entirely on word of mouth.

THE FREQUENCY LAB HAS HOSTED

(Experience and association credibility, people who have been through The Frequency Lab in person. Not a claim of coaching engagements.)

- **Agon**, founder of Project Nightfall (25M following), "severe back pain gone in one hour at the Lab."
- **Dr Saliha Afridi**, clinical psychologist, founder of Lighthouse Arabia, owns the Lucia No 3, "a prized possession."
- **Regan Hillyer** • **Eric Edmeades** (founder, WildFit) • **Robert Simic** (NLP coach), a years-long association with Govind and the Lab.

△ INTERNAL — NOT FOR PAGE

Every named person signs off before going live. Keep all celebrity names framed as Lab-experience/association, NEVER as coaching clients. Coaching quotes (CEO/entrepreneur) must be real and consented before use. The VSL face stays Govind himself, never a named Dubai client.

THIS SESSION IS FOR YOU IF —

- You've won the material game, the income, the title, the life, and the feeling you expected never arrived
- You've read it, tried it, can quote all of it, and still cannot get yourself to move
- You don't want another therapist. You want someone who can actually tell you what's going on

IT IS NOT FOR YOU IF —

- You're looking for motivation, robes, or another framework to read
- You want a free call to "explore options"

You don't have to believe any of this works. You only have to be curious enough to feel it once.

Feel the shift, or it's free.

If you leave the session without feeling a real change, your fee is returned. The risk is entirely ours, because the session reliably does what no ad ever could.

11 FAQ

A (objections in order)

Is this spiritual or religious? No robes, no mysticism, no guru language. It's a body-first, rational method built on the nervous system and how the mind actually works.

Is the session online or in person? It's a live, one-on-one online session with Govind, you can do it from anywhere. (The Frequency Lab, his physical space in Dubai, is a separate in-person experience.)

Do I have to believe in any of it for it to work? No. The session is designed to produce a felt result while you're in it, whether you arrive a believer or a skeptic.

Is this just a sales call in disguise? No. It's a paid session with a real deliverable: your biggest alignment gap and a plan to close it. There is no pitch in the room.

I've genuinely tried everything. Why would this be different? Because everything you tried worked on your thinking. This starts with the body and the part of the mind underneath it, which is why it lands when talk-based methods slid off.

What exactly do I walk away with? The experience of a felt shift, your single biggest alignment gap identified, and a clear action plan.

Will my privacy be protected? Completely. Sessions are one-on-one and confidential. Nothing you bring into the session leaves it.

12 Final CTA

A (why-now peak) → Rush + Reassure → the dream (not the lead)

You were told the goal was to succeed.

Nobody told you that succeeding without the rest of the framework just makes the emptiness more expensive. And it compounds, quietly, until a crisis forces the reckoning you could take on your own terms today.

It's wiser to be a warrior in the garden than a gardener in the war.

Come and feel it once. Be the monk who keeps his Ferrari.

A Blocking [CONFIRM] List

fill before publish

1. Price + deposit for the **online Experiential Session** (the AED 250 in the strategy is the Lab/body in-person angle, a different funnel; confirm this online session's own price)
2. 2 to 3 consented, anonymised coaching outcomes (CEO/entrepreneur quotes above must be real) + sign-off from every named celebrity for Lab/association use
3. Defensible source/wording for the science claims kept on-page (cell charge, conscious-vs-subconscious). The "ten-min light = deep stillness" claim is now Lab-credibility only, keep it for the separate Lab funnel/website, not this online page
4. Lineage line, name the master Govind studied under, if it can be stated
5. Soft door: decide between "watch the 5-min film" and a 2-min self-diagnostic quiz (the triangle: which of the three is blocked?). The quiz doubles as Levesque-style segmentation if you want it.
6. Real calendar capacity (how many sessions/week) so "limited slots" is literally true

B Honesty Guardrails

decided in audit

- Celebrity names = Lab-experience/association ONLY, with written sign-off. Never coaching-client claims.
- VSL face = Govind himself (founder-to-camera), never a named Dubai client.
- Science claims stay testable/observed in wording, sourced before paid traffic.
- No guru/robes/mystical language anywhere in the cold layer. No fake urgency, scarcity is Govind's real calendar.
- The Satya Nadella mention in the strategy is an internal trigger example only, it goes nowhere near the page.

C Reserved for the Room

correctly absent from this page

- Shark Sage, the AED 36,000 program, the 20-module curriculum, the deeper metaphysics. The ad sells the session; the session sells the program.

REFERENCE NOTE

Robert Simic Coaching Institute funnel used for STYLE inspiration only (calm dignified register, plain "no pitch" reassurance, a soft door for the uncommitted, lineage-based authority). Nothing copied.
